

Jet100[®]

The compact machine that delivers power and precision

PRODUCTIVITY

Adaptable speed of cleaning with either brush or jet to maximise efficiency

QUALITY

Can be operated with the lid either up or down

COMPLIANCE

With the lid down and the gloves on, the operator is completely protected from splashes, heat and vapour

Why choose Jet100?

COMPACT

Fits into most parts of your business without compromising on performance .

SAFE

Non hazardous detergents and when using the jet, the operator is fully protected from splashes, heat and vapour.

VISIBILITY

Glass panel coupled with screen cleaning blower enables the operator to inspect the parts during the delivery process.

EFFICIENT

The 24/7 heating control ensures the machine is ready to go when needed and helps reduce energy consumption.

MACHINE CHEMISTRY

MACHINE CHEMISTRY	Description	
aquajet™	General purpose alkaline detergent	✓
aquapure™	Alkaline detergent with low residue finish	✓
aquaero™	Aerospace approved cleaner	✓

Operating internal (WxDxH)	700 x 560 x 300 mm
Footprint external (WxDxH)	825 x 590 x 1100 mm
Total Fluid Volume	60 L
Max Load Capacity	50 kg
Max temperature	45 °C
Dual pump	Manual & Jet nozzle
Flow rate	11.3L - Minute (Max)
Pressure	3.9 BAR (Max)
Heating Control	24/7
